Company Presentation

We are a Swedish owned company in Hong Kong engaged in the development, sourcing and production of an extensive range of products as per our main page.

Our customers are based mainly in Europe and our production and supplier base is found in China, Vietnam, Malaysia and the Philippines.

Our Mission

We shall provide commercially interesting volume products quality assured, on time and at very attractive prices to retailers and distributors in the building and furniture sector based on lean systems and processes in a manner recognized as 'World-Class' by all stakeholders.

Our Offer

We take pride in offering our customers the following:

- * A wide range of very attractive products from a design, feature and commercial point of view.
- * The possibility to at all times log into our house developed Business Administration System BizMaS and there find all facts about past and present business between us including updated delivery plans, product descriptions, latest offers, copies of all Invoices, B/L's, packing lists, statistics and so forth.
- * A thorough Quality Assurance system making sure that each container leaving has been systematically inspected in all production phases until the goods is secured and the container door is closed.
- * All well documented by our Quality Engineers through Inspection Reports with pictures available for view in our BizMaS system.
- * Close follow up in the pre-production and production phases with all sub-factories, making sure that the agreed delivery times will be kept. All well documented and updated in our BizMaS system.
- * The possibility in Bizmas, to open our house developed Container Planning system Stuff It, and in 3D visually plan and load your own articles into containers, optimizing the mixture of the load and also directly see the landed cost in your own warehouse based on your own freight parameters.
- * A very committed organisation with skilled and qualified professionals within Supply Chain Management, Quality Assurance, Customer Service and Business Administration striving for Excellence with ZERO Defects.
- * A strong and well trained Sales Force available locally in most of our sales countries, devoted to please our customers every wish and to communicating our customers' requirements and trends in the markets backwards in the organisation.

Our Range

- * Some articles are designed in-house by our House Designer **Karl Malmvall**, who won numerous design awards and who previously also designed many of IKEA's bestsellers.
- * Some are selected from our sub-factories ranges and adopted to our standards.
- * Some are pure Wood Commodities.
